

QUENCHCRAFT

Price sheet for Mumbai, Thane and Pune

QuenchCraft's main purpose is to help our clients advertise their brand/product or services through the label on the mineral water bottle while also at the same time reducing the cost of the mineral water bottle for the end user.

One of the services that we offer is branding the mineral water bottle as per our client's requirement. The below prices are indicative and change depending on the content, colors on the label and different customizations sought by our client.

1.) Standard Bottle Design

2.) Premium Bottle Design

3.) Sample Design with Labels

Some of our label samples

PP White

PP Transparent

PP White- The background is of white color or we can change the color as per client's requirement.

PP Transparent- The background is transparent. If needed as in the image with the bottle, some background can also have color as per the design

***White background in general is a little expensive to print and increases the costing.**

Dual side label

Dual side label- In this design, you can put some content on the backside of the label too which is visible from the other side of the bottle. Dual side label gives you more space for your content.
